	VIDEO	AUDIO
	<p>Dennis in the meeting room, title bar: “Dennis Miller, environmental health and safety Manager, APL company”</p> <p>0:58-1:02</p>	<p>Dennis: I’m Dennis Miller; I’m the environmental health and safety manager at APL</p> <p>0:58-1:02</p>
	<p>Dennis in storage room, performing the tasks that he described on the right.</p> <p>35:00-38:00 For the editor to decide.</p>	<p>Dennis: Because of the hazmat materials that we use here in the process, we generate waste products, and those waste products have to be disposed properly. So have people who are trained to be able to handle the hazmat waste, we do some minor treatments. Here it’s a lot by the law, we neutralize the ? And get it to the ph of 7. That it could be shipper or could handle without the corrosive nature</p> <p>2:20-2:50</p>
	<p>Footages of the company.</p> <p>38:00-40:00 For the editor to decide.</p>	<p>Dennis: we’re required to have this type of emergency response to people because of the materials we deal with. U of I is the local provider, so it’s convenient for us, they do an excellent job.</p> <p>1:19-2:15</p> <p>We have two gentlemen from the U of I, they’re both on the regional hazmat response team. They’re Champaign firemen while trained and work for U of I, they bring a large volume of experience, and working with hazmat response,</p>

		because they've been fireman for number of years. They've been involved in a lot of incidents. 05:30-05:55.
	Dennis looking straight into the camera. 18:07-18:23	Dennis: My name is Dennis Miller. I'm the environmental health and safety manager at APL at Urbana-Illinois. Illinois hazard materials training is our source for customized training and allows our people to do their job safer. 18:07-18:23
