</table>

B. COURSE DESCRIPTION

This course is designed to help students develop an understanding of theory and research in career management and to demonstrate how such knowledge is applied to the effective management of one’s career. It covers various career management topics such as the changing nature of work, theories and models of career development, and career planning processes, techniques and resources. In addition, the course features an evidence-based approach to the management of one’s career including: a) identifying one’s goals, abilities, interests, work values and potential career pathways, b) navigating through the job application process, and c) managing job entry and survival. The course operates under the assumption that an in-depth understanding of career issues will help students to manage their own and others’ careers more effectively.

C. COURSE OVERVIEW

**Learning Outcomes**

At the end of the course, students should be able to:

1. identify factors and issues influencing employees and their careers;
2. discuss the various theories of career choice and development;
3. reflect on their abilities, personality, work values, and personal attributes;
4. produce a self-assessment report by integrating the results obtained from the self-assessment tools;
5. formulate an action plan to assist one’s career development.
6. facilitate students’ personal growth through the process of self-reflection and on-going feedback.
7. foster students’ commitment to personal development and life-long learning.

**Approach to Teaching and Learning and Course Expectations**

I subscribe to the tenets of a learner-centred teaching philosophy focusing on the students’ experiences, abilities, and competencies. My role is to encourage, facilitate, and help sustain this process. I expect you to be responsible for your own learning. As such, I will assume that you have devoted time and effort reading the assigned material, and that you will attend the class with questions that you wish to address, and insights and personal experiences that you wish to share. In essence, maximising your learning requires that you read the assigned material and actively participate in discussions and activities. Below are specific assumptions that will guide our class interactions:

- We enjoy learning from each other.
- We encourage thoughtful, active and engaging discussions.
- We are open to a diversity of views and perspectives but these should be expressed in a professional and respectful manner.
- We support each other’s achievements.
- We come to class on time.
- We ensure that laptops/tablets/mobile devices are turned-off in class unless these devices are necessary in our class activities.

The course content will be a blend of research and practice. In addition, key concepts, cases and practical experiences will be presented in the lectures that are not covered in the course material. Lectures are supplemented with structured learning exercises and activities (e.g., roleplaying, socialized recitations, simulations) that have well-defined objectives and replicate the real-world context.

**Feedback**

Students will be given feedback in the following areas:
1. Written and verbal feedback on group presentations.
2. Written and verbal feedback on the self-assessment portfolio and career report.
3. Verbal feedback to the whole class.

Assessment Detail

Assessment 1a: Practice Theme Development (i.e., create 2 themes)

<table>
<thead>
<tr>
<th>Weighting</th>
<th>None</th>
</tr>
</thead>
<tbody>
<tr>
<td>Purpose</td>
<td>Students will formulate two themes that can be submitted for formative feedback from your tutor. Your submission can be handwritten. You can submit a maximum of two themes and it should not take more than one A4 paper (more than this will not be given feedback). No marks will be allocated.</td>
</tr>
<tr>
<td>Deadline</td>
<td>October 2</td>
</tr>
<tr>
<td>Preparation</td>
<td>A workshop will be held on October 2 to help the students prepare for their assessment.</td>
</tr>
</tbody>
</table>

Assessment 1b: Self-Assessment Report
Weighting | 35%
---|---
Purpose | To help you develop personal awareness such that you can determine a career path that will ‘fit’ you best. Early in the course you will be provided with assessment tools that will help assess your intelligence, values, interests, personality, and skills. You will then have an opportunity to reflect on the results from these tools and synthesize them into a meaningful report that will hopefully provide new insights and recommendations for your future.

Preparation | A workshop will be held on October 2 to help students prepare for their assessment.

Required Format | Please see assignment guidelines.

---

**Assessment 2a and 2b: Empirical Research Presentation and Review Paper**

Weighting | Empirical Research Presentation: 10%
---|---
| Empirical Research Review: 20%
| Peer evaluation: 5%

Purpose | The purpose of Assignment 2a and 2b is twofold: firstly, for you to have a deeper understanding of current research in career management and appreciate how research can inform managerial practice, personal development, and career management. Secondly, for you to improve your presentation skills such that you have experience in delivering useful information in an understandable and engaging way which can lead a group of people in thinking critically about an issue, and contributing to the discussion.

To ensure that every member of the team contributed to this assessment, each member of your group will also be asked to complete a peer evaluation. Peer evaluations should be submitted along with the empirical research review.

Deadline | To be submitted one week after your group’s presentation, both in a hard copy version and an electronic version via email.

Preparation | An orientation on how to write and prepare for your research report will be provided in class.

Required Format | Please see assignment guidelines.

---

**Assessment 3: Contribution and Participation**

Weighting | Contribution and Participation: 10%
---|---

Purpose | Contribution and participation in class activities are central components of the learning process in this course. Each student is expected to attend the class fully prepared. This includes completing any self-assessments required and completing the assigned readings. If you do not complete your self-assessments in time when it is being scored and discussed, you will not know how to interpret it, and you will fall behind. Furthermore, it will be obvious whether you have completed the readings each week because you will either be actively participating in the weekly discussion in the tutorials, or you will be sitting there looking blank and lost. Remember, all material from the assigned readings is examinable so it is to your benefit that you keep up with your weekly readings and participate in the discussion to solidify your understanding. If you cannot commit your time and energy, I strongly advise you to consider taking a different course.
The following are some examples of participation:
- Raising and answering substantive issues and questions
- Sharing relevant ideas, observations and personal experiences
- Pointing out relationships to earlier topics, discussions, and simulations.
- Helping others develop their views and ideas.

From October 16 onwards, there will be a group presenting each week that has done extra background reading, and I will also be there to help guide your understanding. Make sure you take the opportunity to question and clarify your understanding. Please note that you are responsible for all class announcements and handouts, whether you are present or not. Be alert for possible changes.

Deadline Ongoing: throughout the semester.

Assessment 4: Two Long Exams

<table>
<thead>
<tr>
<th>Weighting</th>
<th>20%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Purpose</td>
<td>Two long exams consisting of true or false, multiple choice or a hybrid of the two will be administered in the semester. It focuses on understanding of theories and research relevant to career development as well as your ability to apply key concepts and theories in practical situations. The content of the exam includes assigned readings, power point slides, and class discussions.</td>
</tr>
<tr>
<td>Preparation</td>
<td>Read the assigned readings and power point slides. Participate in class discussions.</td>
</tr>
<tr>
<td>Schedule</td>
<td>October 9 and November 27</td>
</tr>
</tbody>
</table>

The following grading scale will be used:

<table>

<td>60 - 62</td>
</tr>
<tr>
<td>F</td>
<td>Below 60</td>
</tr>
</tbody>
</table>

Extra Credit/Bonus

There may be opportunities for you to earn extra credit or bonus points by participating in bonus quizzes, research experiments and helping recruit participants for research. The bonus quiz activities are not announced and will be part of the class activities. Participating in research and helping recruit participants for research are entirely voluntary. If you do not wish to be involved, alternative
arrangements can be made such as completing an alternative assignment. The bonus points and the mechanics for earning extra credit/bonus points will be administered at my discretion.

F. REQUIRED MATERIAL/READINGS

- All readings will be made available through the learning platform. You will be required to complete a series of assessment tools that will be the basis for your self-assessment portfolio and career report. Self-Assessment tools will be distributed/administered (in the case of a standardized ability test) in class. It is YOUR responsibility to ensure you have completed, scored and interpreted all Self-Assessment tools.

- I may distribute additional handouts and assign additional readings. You are responsible for reading and incorporating, where feasible, these additional material into your learning.

- No text and/or group of selected readings could encompass all of the relevant theory, research, and practitioner literature surrounding career planning, career entry, career management, and career development. Students are encouraged to investigate additional books in their exploration of this subject.

- Some topics in career planning are reasonably dynamic and the relevant material in books may date quite quickly. It is therefore important to read and explore around the prescribed text/readings and to monitor relevant periodicals (both practitioner as well as academic journals). I strongly recommend that you use the following journal resources for the integrative research summary (note that this is only a partial list of journals which publish research on career-related issues):

  - Academy of Management Journal
  - Academy of Management Learning and Education
  - Applied Psychology: An International Review
  - Australian Journal of Career Development
  - British Journal of Management
  - Canadian Journal of Career Development
  - Career Development International
  - Career Development Quarterly
  - Human Resource Management
  - Human Resource Management Journal
  - Journal of Applied Psychology
  - Journal of Applied Social Psychology
  - Journal of Business and Psychology
  - Journal of Career Assessment
  - Journal of Career Development
  - Journal of Management
  - Journal of Management Studies
  - Journal of Organizational Behavior
  - Journal of Occupational and Organizational Psychology
  - Journal of Vocational Behavior
  - Organizational Behavior and Human Decision Processes
  - Personnel Psychology
G. GENERAL GUIDELINES IN SUBMITTING WRITTEN ASSIGNMENTS AND EVALUATING YOUR WORK

- Written assignments are due at the beginning of the class on the due date. A hard copy will be submitted in class and an electronic copy will be submitted via email before the class. You must disclose the Word Count on the first page of your assignment. Adhere to the word count requirements. Assignments which are over the word count will incur a 5 point deduction for every 10 words over the word limit. The word count does not include references and appendices.

- Any late submission will incur 10 points deduction per day late. For example, a paper submitted one day late would incur 10 points deduction from the overall mark; two days late will incur 20 points deduction; so on and so forth.

- All assessments will be marked in accordance to a marking/grading criteria. Please see assignment/assessment guidelines.

- Students who do not show up in their allocated session/team presentation will incur a grade of zero.

- I strongly encourage students to obtain feedback on their writing, formatting, and so forth prior to submitting their assignments. The Center for Writing Studies at the University of Illinois, Urbana-Champaign provides free workshops and writing assistance.

H. ATTENDANCE SPECIAL CONSIDERATIONS

- Students are expected to come to class and back from breaks on time.

- I will only allow two absences. Beyond that, I will excuse an absence only in emergency situations (e.g., death notice, a medical certificate from a doctor indicating more than simply an appointment, etc.)

- I am committed to support the needs of all students. Students who have special needs or a disability must be registered with the Division of Disability Resources & Education Services (DRES). Please contact me within the first two weeks of the semester. DRES application information is available at: http://disability.illinois.edu/applying-services.

- Make-up exams will only be given with an official University excused absence or due to extreme circumstances (e.g., death in the family, participation in legal proceedings requiring your attendance, confinement in a hospital based on doctor’s recommendation). An official excused absence must include evidentiary support.

I. ACADEMIC INTEGRITY

The University rules regarding academic integrity, examination and other official provision will be enforced and should be reviewed by all students (http://studentcode.illinois.edu/index.html).
